

U. S. WILL FORMALLY RECOGNIZE MEXICO

PROBABLE TIME OF EXTENSION NOT YET FIXED

Secretary Colby Forecasts Early Settlement Of the Matter.

AWAIT INAUGURATION

Believe Officials May Wait Until Obregon Is In Office.

Washington, Oct. 30.—With early recognition of a new Mexico, forecast by Secretary of State Colby interest today turned on the probable time of the extension of recognition.

Secretary of State Colby and other officials of the state department declined to make any statement as to whether recognition would come before the inauguration of president-elect Obregon December 1. It was generally believed here, however, that this government will await the inauguration of Obregon and the formation of his cabinet before extending recognition to Mexico.

The announcement by Secretary Colby that negotiations for the recognition of Mexico gave "promise of a speedy and happy outcome," came as a considerable surprise in official circles here for the state department had given the impression that negotiations for the recognition of Mexico were proceeding slowly.

Assurance Given.
The turn in the tide, it is understood came when Roberto Pesqueira gave assurance to the state department that Mexico is "submitting herself to the principles of international law." This fact coupled with the assurances of Pesqueira, the confidential agent of the Mexican government, that every protection will be given Americans in Mexico, is believed to have brought the negotiations to a point where Secretary Colby felt himself warranted in forecasting early recognition.

There was much interest here today in the possible terms which may be arranged for the settlement of claims against Mexico and the settlement of oil controversies.

There are many hundreds of American claims against Mexico, and it is the general impression here that an agreement will be reached whereby all these claims will be submitted to a board of adjudication.

REMARKABLE NIGHT PHOTOGRAPH OF KU KLUX KLAN IN SESSION

A remarkable flashlight photograph of a midnight meeting of the Knights of the Ku Klux Klan made recently on top of Stone Mountain near Atlanta, Ga. Reports from the South indicate that the Klan, famous in the reconstruction days of the Civil War, has been revived. Night riders have destroyed many cotton gins in the South and threatened further destruction unless cotton prices are kept up. The headquarters of the revived organization is in Atlanta, and Col.

William Simmons, formerly a Methodist preacher, is at its head. The picture shows the flaming cross, the symbol of the Klan, and the quaint white costumes, replicas of those worn by the Night Riders of old.

TRIBUTE PAID MACSWINEY BY CITY OF CORK

Mourners Gather Outside City Hall In Early Morning.

Cork, Oct. 30.—Long before the first rays of the rising sun added their gold to the colors of the flag of the republic of Ireland fluttering at half mast atop the city hall of this ancient Celtic town, a huge throng of mourners had gathered outside. With a guard by an honor squad of Irish volunteers, lies the body of Terence MacSwiney, who as lord mayor of this city walked scores of times each day across the very spot where his flower-decked coffin now rests. The body will lie in state there until the solemn funeral service tomorrow morning. Only a few paces from where the casket stands MacSwiney was arrested on August 12, the day he began the hunger strike which ended his life a week ago in Brixton prison, London.

From Holyhead and Dublin came reports early today of an ugly mood shown by the thousands of both towns, who had counted on being allowed to pay a last tribute to the dead lord mayor whose name is already a household word throughout Erin as that of a twentieth century martyr.

How To Read Bomb Signals Election Night

A series of large aerial bombs will be fired Tuesday night, sometime between midnight and 2 a. m., to tell the people of the county how the Presidential election has gone.

The Gazette and the Republican have secured the largest bombs obtainable, which will be fired from mortars set for the purpose, in the Roberts' Addition. The bombs are shot into the air several hundred feet, and then exploded with terrific force, causing a detonation that, with favorable atmospheric conditions, may be heard in the farthest corners of Greene county.

In this new way, the Gazette and the Republican are making the effort to get the returns to all the people of the county, in the quickest possible manner.

ORDER OF FIRING

First will come a bomb to indicate that we are ready to give the returns. It is merely a signal for everyone to listen for what will follow.

Three minutes after this signal bomb is fired, the bomb or bombs, giving the results of the election may be read as follows:

- One bomb—Harding Elected.
- Two bombs—Cox Elected.
- Three bombs—Election close, and undecided.

In addition to the above, the usual stereopticon returns will be thrown upon a large screen in front of the Gazette building on South Detroit street. For this occasion the best facilities of the country have been provided, and no public in the United States will be better served on election night than the people of Greene county.

BEGIN INVESTIGATION INTO SINKING OF SHIP

Believe 19 Members of Sunken Ship Perished In Waters Of Narragansett Bay—Search Being Made For Missing Men.

Newport, R. I., Oct. 30.—An investigation was begun here today into the sinking of the concrete Cape Fear of the U. S. Shipping Board by the Savannah Line Steamer City of Atlanta in Narragansett Bay with the probable loss of 19 members of the sunken ship's crew. The ships are continuing their search for the missing men.

The Cape Fear, outward bound from Providence for Norfolk, went down in three minutes half way between Castle Hill on the Newport shore and Rose Island. The boat sank in 125 fathoms, the deepest part of the bay.

Fifteen of the Cape Fear's crew saved their lives by jumping into the bay or by sliding down lines to the deck of the City of Atlanta. The men who jumped were picked up by the boats and lowered ropes.

Three of these rescued from the Cape Fear were found to be suffering from injuries. Captain Henry Bigelow sustained cuts about the head. E. K. Holmes a messman received injuries on the head and Sabin Pashanale, an oiler, suffered scalp wounds. Holmes, the most severely injured, was removed to the Newport hospital.

DEMOCRATS LOSE ON LEAGUE ISSUE DECLARES HUGHES

Shawnee, Oct. 30.—Charles Evans Hughes told an audience here last night that the Democratic party had been beaten on the League of Nations issue "upon which the president demanded a great and solemn referendum." In his speech, confined mostly to the League of Nations, he also declared that Gov. Cox "seeks to jettison the platform which yesterday he unequivocally endorsed," and scored the present administration, saying it is "undemocratic."

"Upon this issue upon which the president demanded a great and solemn referendum and which the Democratic platform formally presented," said Mr. Hughes, "the Democratic party has been discussed, the more indefensible the covenant with its article 10 has appeared to be."

"Perceiving this, the Democratic candidate is apparently in a state of panic. He seems to be trying to disown Mr. Wilson and to repudiate his platform. Before the end of the week he may be trying to run on the Republican platform."

Declaring that until recently Gov. Cox has been extolling article 10 to which he gave his approval in his speech of acceptance and to President Wilson, Mr. Hughes continued: "Of what avail are the political promises of a candidate who in the moment of extremity seeks to jettison the platform which yesterday he unequivocally endorsed?"

Turning to the administration, Mr. Hughes said:

"We have never had an administration that has talked more of democracy and never has there been one more undemocratic. It is not too much to say that in the last four years, with the exception of Russia, the American government has been the most autocratic in the Western world and this has resulted in neither expertness, economy nor efficiency."

FINAL ADDRESS SCHEDULED FOR CAPITOL CITY

Domestic and Foreign Policy To Feature Columbus Speech.

SCORES DEMOCRATS

Senator in Cincinnati Talk Friday, Indicts Administration.

Cincinnati, O., Oct. 30.—Senator Warren G. Harding will bring his campaign officially to an end tonight in a final speech at Columbus summarizing his position on questions of domestic and foreign policy.

Brief speeches were scheduled for the Republican candidate this afternoon at Middletown, Dayton and Springfield.

The senator's Cincinnati speech, devoted mainly to an indictment of the Democratic administration for the mounting cost of government and enormous increase in the number of government employees, struck a note in declaring for a credit system to protect crop growers. He said that farmers should not be forced to dump the products of their toil on an oversupplied market, but should be enabled to hold them, through proper extension of credits, until the markets normally could absorb them.

Answers Ex-Soldier.

Senator Harding, answering an ex-soldier, made it clear that he favored a bonus for veterans of the world war, but he declared that not even members of the American Legion would wish to take such a bonus at a time when the financial condition of the country could not stand such an added drain and insisted that only by a return to Republican principles of economies would the country be in a position to do anything for the ex-soldiers.

The audience, one-fourth comprising women, cheered every reference by Senator Harding to maintaining American independence of action in all foreign affairs. There was a great ovation when he said:

"If there had been proper preparations for war before the 1916 campaign it might have prevented the United States from entering the war. I charge this to inefficiency of the Democratic administration."

In restating his opposition to the Wilson League of Nations, the senator asserted that there "were seeds of future wars" in the Versailles treaty.

Congressman S. D. Fess of Yellow Springs, Republican candidate for re-election for congressman, from this district, will wind up his campaign with an old fashioned rally, Monday night, delivered from his front porch weather permitting at 7:30. The Robins and Myers band of Springfield will be present, and several special cars will bring Springfield people to the meeting. Lelton T. Marshall, of this city, announces that an effort is being made to gather a delegation from Xenia, and all those who wish to go are asked to meet at the Harding and Coolidge club at 6:30 Monday night. An attempt will be made to secure machines for those who do not possess and wish to attend this event. Mr. Marshall desires that all who wish to attend will communicate with the Harding and Coolidge Club.

Boys, you'll have to watch your step around this time, because it seems that the police have a different idea about Halloween pranks than you. For instance, they cannot see the joke of breaking milk bottles and other like misdemeanors, so if you don't want them on your trail, you had better find a type of "sane celebration."

The local police have received complaints about damages committed by boys, and the chief of police absolutely forbids destructive demonstrations.

EXPLANATION OF CRABBE ACT GIVEN FOR INFORMATION OF LOCAL VOTERS

Believing that many people are not well posted in the exact meaning and terms of the Crabbe Act, the Gazette and Republic has received from H. L. Smith, upon request a description of the act. Mr. Smith says:

"Editor Gazette:—This is not a paid political advertisement, and will be signed by the writer.

I am asked by the Gazette and Republic to write for publication an explanation of and the reasons for the support of House Bill No. 620, commonly known as the Crabbe Act, to be submitted to the electors of Ohio for approval or rejection next Tuesday.

I assume that it is generally known that no act passed by General Assembly of this state, can go into effect until 90 days after it has been filed by the governor in the office of the Secretary of State, except laws providing for tax levies, current expenses of the state, government and state institutions, and emergency laws necessary for the immediate preservation of the public peace, health and safety. An emergency act must be declared to be such upon a yea and nay vote by two-thirds of all the members elected to each branch of the General Assembly.

The Crabbe Act was declared to be an emergency act by the necessary vote in the senate, but failed by two votes in the house to receive the required two-thirds, its advocates vainly pleading with Governor Cox to aid in securing two additional votes from Democratic members of the house. It was claimed it should be made an emergency act because it was necessary for the immediate preservation of the public peace, health and safety in securing the enforcement of the prohibition amendment. Not being declared an emergency act it could not go into effect until ninety days after February 17, 1920, the day it was filed by the Governor with the Secretary of State, and not then if a referendum petition, duly signed by the necessary numbers of electors, should be filed with the governor for its submission to the electors for their approval or rejection. The necessary petition having been filed, it is for the electors to approve or reject on next Tuesday.

The act is to prohibit the liquor traffic and provide for the administration and enforcement of such prohibition. Briefly, it declares it to be unlawful to have or possess, any liquor or property designed for the manufacture of liquor intended for use in violation of law, or which has been so used. No property rights shall exist in such liquor or property. The word liquor includes practically all known liquors, by whatever name, whether distilled, spirituous, vinous, malt or fermented, medicated, proprietary or patented, containing one-half of one per cent or more of alcohol by volume, which is fit for use for beverage purposes.

It was necessary to declare any exceptions to the holding or possession of the liquors above named, otherwise, it would cover the holding or possession under any and all conditions, so it is expressly declared that the terms "giving away" or "possess" shall not apply to intoxicating liquor in a bona fide private dwelling. Then by a further provision, no search warrant shall issue to search any private dwelling, occupied as such, unless it is being used for the unlawful sale of intoxicating liquor, or unless it is in part used for some business purpose, such as a store, shop, saloon, restaurant, hotel or boarding house.

A violation of the act for the first offense shall be a fine of not less than \$100, nor more than \$1,000. For a second offense, not less than \$300 nor more than \$2,000. For a third and each subsequent offense, not less than \$500 nor more than \$2,000 and he imprisoned in the state penitentiary not less than one year nor more than five years. Money arising from fines and forfeited bonds, shall be paid one-half into the state treasury and credited to the general revenue fund, and one-half to the treasury of the township, municipality or county where the prosecution being before a county, township, or municipal officer.

Justices of the Peace, Mayors, Police Judges, Probate and Common Pleas Judges, all have jurisdiction to punish offenses for violation. I favor the approval of the act and find the best arguments in its favor in replying to objections of those opposed to it. It is claimed that the act is needless, that we have the Federal law, known as the Volstead act. No use to multiply laws, machinery and expense.

The act is not needless, because our Federal Courts will not have the time to try the numerous cases of violation. It will not make more expense because the act simply calls into service the numerous officers in every county,

city and township in the state, now in active service. The addition of common pleas, probate and police judges, mayors, justices of the peace, sheriffs, policemen and constables throughout the state of Ohio, as officers to aid in the enforcement of the law, is surely not a reasonable objection to anyone desiring its enforcement. There need be no additional offices created and no additional expense.

2. The lobby of the anti-saloon league exhausted every effort to attack an emergency clause to the act to prevent a vote of the people thereon.

It is true every effort was made to declare it an emergency act, in order that it go into effect at once. But even if the reason could be extended to prevent a vote of the people upon it, I can not see why that should of itself be a reason for voting against it, if in other respects it is needed to enforce a provision of the constitution of the United States.

3. It is further claimed it will give further employment to anti-saloon league officials at public expense. I fail to see why it will require additional officers. If it should, it is an admission that the violations of this act will be very numerous. In such case, if additional officers are needed, they should be provided and they should be persons who will enforce the law in good faith. I fail to see why one in favor of the law from the beginning should be disqualified as an officer to enforce. He certainly would make a better officer than one at all times opposed to the act.

4. It is also claimed that a reversal provision of the Ohio Constitution, makes a man's home his castle, free from unreasonable search, and the permission to search a dwelling used in part for some business, such as a store, shop, saloon, restaurant, hotel or boarding house, is unreasonable.

A dwelling house used as such cannot be searched unless used for the unlawful sale of liquor. If so used no one should claim it should not be searched. It is true there are many dwellings used in part for some business purpose but if such dwellings could not be searched, how many thousands such dwellings would spring up all over the state for the very purpose of use in the sale and manufacture of liquors? The shop, store, restaurant, hotel, soft drink place or boarding place would be made a blind for an unlawful purpose. All such occupiers of dwellings used in part for business need do is to be law abiding citizens. The fact that they may be subject to search will be a strong incentive not to become a violator of the Crabbe Act.

5. The act provides heavy fines on what may be a trivial offense. There may be a difference of opinion as to what constitutes a trivial offense. But a violator is given two chances before he may be imprisoned. When it comes to a third offense, it would seem to be about time to inflict a punishment that will stop violations. On a trial for a third offense, the accused is tried to a jury.

6. It is claimed that householders cannot sell cider or fruit juices after they become intoxicating, except to persons having permits to manufacture vinegar.

This is simply to prevent the secret sale of intoxicants in dwelling houses not liable to be searched. One holding a license to sell vinegar will be watched and under close scrutiny. But Mr. Householder can make all the cider and fruit juices he desires, and drink all he desires at any stage if he can, and so inclined. But he cannot sell same after they become intoxicating, except as above stated.

Finally, the having or giving away liquors in bona fide dwelling houses is not made a penal offense, unless the giving away should be with the unlawful purpose that same should be sold and done by collusion with the other party.

The right of the individual in his home is not restricted. A room used and occupied as a dwelling in an apartment house, hotel or boarding house is to be held and construed as a private dwelling. Money from fines and forfeited bonds should go to the state, county, municipal and township treasuries instead of, as now to the Federal and would help pay any additional expense which seems to be one reason objectors to the act.

It seems to me we need this act to enforce prohibition now a part of the constitution of the United States, and it should be enforced in the same manner as any other provision of the Constitution. H. L. SMITH.

WOULD REQUIRE ALL HUNTERS TO RECORD

The advisability of enacting a provision, making it compulsory for each person, who purchases a hunter's and trapper's license, to make a record of the game killed under such license, is being considered by the Bureau of Fish and Game, at Columbus.

"This is suggested as a measure necessary to compute the tonnage in food pounds, or the amount of game killed in Ohio each year, and is the only way in which anything like an accurate estimate or census can be obtained," says A. C. Baxter, Chief of the Bureau. Hunters and trappers this year will be asked to make a voluntary report of the amount of game, birds or animals taken. This would require only a few minutes time and the cost only a postage stamp. The information will be appreciated by the department as well as the general public, and all hunters and trappers will be asked without further notice to comply with this request.

Ohio has never had a game census. Other states are requiring hunters and trappers to make a report of the amount of game or fur-bearing animals taken and the total is surprisingly large. There are at least 300,000 hunters and trappers affixed in Ohio each year. An estimate of the tonnage of game or fur-bearing taken, estimated from the standpoint of food values as well as sport or recreation, is enormous. The work of the department in preventing serious depletion and in replacing the game taken, through propagation and restocking, is a gigantic task but all reports to date show that game is on the increase in Ohio in spite of the number of hunters, and this is due to stringent game law enforcement, wise legislation and systematic restocking. "There is no doubt that there is more game and better hunting in Ohio today than ten years ago," Baxter says.

"An effort will also be made to compute the number of game-fish taken in Ohio next year, and fishermen will be asked to assist the Bureau of Fish and Game in forming an estimate." The number of fishermen, including men, women and children, who fish in Ohio lakes and streams each year, is estimated by Baxter to be at least 400,000.

wise, shakes his head, and says, "If you take that it will produce war." About all the poor voter can do is to take an ounce of common sense and mix it with a pint of observation. When I do this the League of Nations appears to me a great deal like the league of marriage. It is supposed to be a League of Peace, but in spite of the covenant, it may prove a League of War. You see, so much depends upon the parties entering into it. If they sacrifice each others selfish interests to the good of both, then it is a League of Peace, but if one or both are jealous and selfish, then, sooner or later there is war.

Now, nations are just like individuals, and if the nations of the world are ready to trust each other, and sacrifice their selfish interests for the good of all, then they can form a League of Peace, otherwise, they must eventually have war, no matter what sort of covenant is made.

History tells us, though, that the greatest danger that a nation confronts is not the foe that is without but the one within. Rome boasted of her greatness, but where is the great Roman empire today? Her fall was not due to an enemy without but to corruption within. Let not the voter be deceived in thinking that such questions as temperance and the cleaning up of politics are of minor importance. If the voters will stand firm for clean, dry and honest men in office, then we will have gone a long way towards solving the great problems that threaten the foundations of our Republic."

I am hoping, and have faith to believe, that our good men and women of our state and nation will go to the polls on November the 2nd, and with steady, Christian courage, register their votes in the light of a Christian conscience, while above the crack of the whip of the party boss, and the howl of the corrupt politician, they will bear in thundering tones, God's eternal truth, "The wicked shall be turned into hell, and all the nations that forget God."

Perhaps someone requested it to be done, and I believe that it is a good thing for it to be there, for it will lend strength to the story for folks to know who is back of it. Don't you think so, John?"

Mr. Politics smiled, and said, "Well I have always noticed that a sledge hammer never strikes a heavy blow without a handle, and I don't know any better handle to attach, to the sledge hammer argument being given out by means of this story than that of the names of the Dry Federation and two of its leading members."

There is another thing I've noticed so much this fall and that is the attempt made by so many politicians to discredit this truth, but the palmist has said, "Their sword shall enter into their own heart, and their bow shall be broken."

As an illustration of political play, take the question of the League of Nations; it is considered by so many as the paramount issue of the campaign, and is causing many people to overlook the importance of the temperance issue and the matter of putting good men into office. It is a question that should never have been brought down to the polls. Whoever was responsible for it, there is no doubt it was largely political play.

I think there is a great deal of political Peruna being handed out under the brand of THE LEAGUE OF NATIONS. One patent medicine doctor tries to sell it under a guarantee to produce WORLD PEACE, while the other party's regular physician looks

WARNING

Information has come to this club from several sources that emissaries of the Democratic Party are attempting to cause voters to lose their votes for Warren G. Harding by misinforming them how to vote the National Ticket. BE NOT DECEIVED. This is but one of the many underhanded devices the Democratic Party is resorting to, in the closing days of the campaign, in its despairing and useless efforts to prevent defeat. THERE IS BUT ONE WAY FOR A REPUBLICAN TO VOTE THE NATIONAL TICKET AND THAT IS TO PUT A CROSS IN THE CIRCLE UNDER THE EAGLE. Any other mark is entirely unnecessary and will result either in the loss of your vote altogether, or in splitting your vote between the Republican candidate and the Single Tax or some other candidate.

THE HARDING & COOLIDGE CLUB

SATURDAY CRUCIAL DAY IN FOOTBALL FIRMAMENT IN EVERY SECTION

With the preliminary games of early season in the discard, football teams all over the country are finding themselves today in the midst of the crucial crest of their seasonal careers.

Interest is at its ripest, and real football weather, for the first time this season, is contributing to the general enthusiasm. Saturday afternoon there were many football pilgrimages to gridirons all over the country, where real championships were at stake and where many an eleven is due to pass into oblivion for the rest of the season.

The most remarkable game in the point of local interest is the Miami-Denison clash at Dayton, which draws hundreds of favorite sons of both colleges and which rivals in school spirit the big contests of the East. There is nothing that can mar the perfection of a Miami-Denison game in the way of interest, for there is always that old rivalry supreme that makes the game interesting even if both teams are out of the race.

This year it happens that Miami has already been beaten, although Denison still has a clean slate, the Oxford outfit having been trimmed by Wittenberg last Saturday, 17-0. This detracts not from the interest, however, Denison, with one win necessary to tie the count between the two schools, will fight like demons to duplicate the feat of the Lutherans. In this respect it is said that "Yip" Owen star Backus, and one of the great punters in Ohio today, is suffering from a fractured ankle bone in his kicking foot. He will play however, with a steel brace on the member and the ankle cocained to prevent pain which exemplifies the intense spirit that marks the game.

In the Western Conference, the biggest game in point of local interest is the Ohio State Chicago game. It will be the first time since the admittance of State to the Conference several years ago, that the Ohio lads have been able to get a game with the Maroons, and there has been a feeling around Chicago that the showing of the Ohioans in winning to championships was pretty much piffle. Stinchcomb, Werkman and Company will try to dispel that theory this afternoon when they meet the Maroons in their own ballpark.

In the East the Notre Dame-Army game, the annual inter-sectional clash is attracting much interest. For years this game has been an annual event and Notre Dame has well upheld the honor of the West in previous contests. Yale will tackle Colgate, which should not be such a serious proposition, but Princeton will take no chances with West Virginia, which team defeated them last year. Harvard, the last of the big three will line up against Virginia. Centre College, of Danville, Ky., believed by many since its defeat by Harvard to have been over-rated, will play Georgia Tech, a team it defeated last year.

Coach Ward Young of the Central high school gridirers has decided not to play off the deciding class game next Tuesday, as at first predicted, owing to the risk of crippling his team for the game with Miamisburg next week. The class game, it is now decided, will be played off after the regular season.

In independent circles, the Maroon clash with the Riverview Indians, of Cincinnati, Sunday, is looked forward as one of the biggest games of the season. It will be the first appearance of Captain Buck and his followers on the home lot for two weeks and fans will be anxious to see the club resume its schedule in this city.

The Dayton Triangles Sunday are believed to have an easy proposition on their hands in the Cincinnati Celts, who do not bear the reputation they did a few years ago.

THE THREE MILL SCHOOL LEVY—LET YOUR HEART DICTATE YOUR VOTE.

On Tuesday the voters of the Xenia school district will be called upon to decide the future of Xenia Schools. In their hands will rest the solution of a problem that is confronting the Board of Education of Xenia, and one which is of paramount importance to the present, and future welfare of the city.

The city schools are fighting a hopeless battle in finances and unless immediate relief is forthcoming, a situation, fraught with great peril to that backbone of American institutions—the school system—threatens to engulf local schools. The bald statement is, that the schools are bankrupt, without means of borrowing more money to carry on the current expenses, which due to increased costs, have outgrown the budget.

They are seeking the only way out of the predicament—a direct appeal to the voters of the vicinity, to sanction an added three mill levy at the polls. This means was made possible at the last session of the legislature, when it was decided to revise the laws to admit of this action, to do away with the expensive issuance of bonds, on which interest rates soon wipe out the gain.

In many cities of the state this question has been put before the voters, and IN NOT ONE INSTANCE HAS IT FAILED. What is Xenia going to do on this matter next Tuesday? Is she going to allow a very slight increase of taxes to stand in the way of salvation of the schools of Xenia or is she going to vote "no" on the three mill levy, and permit an eight month term, loss of teachers, insufficient equipment, and an untaught youth?

No! Never! This issue must not be allowed to go by default. Do your part at the polls Tuesday and vote "YES" on the three mill school levy.

Let your heart and not your pocketbook dictate your vote.

MR. COX MUST EITHER STAND UP OR SIT DOWN.

Now about this sitting down with the senate Mr. Cox says he's going to do if elected. How does it square with that sitting down with the President he did only last July? And how's he going to sit down with the senate without first sitting down on the administration that is now giving out the word to its supporters that Mr. Cox will stand up for the Wilson league and not sit down at all?

Certainly Mr. Cox cannot sit down and stand up both. Nor can he continue indefinitely to stand and sit alternately as he is now doing without wearing himself all out.

To be elected he's got to stand up for the league, for in no other attitude will the Wilson leaguers have anything to do with him. That is the only out and out support he has, for all the league opinion in the country that stops short of the Wilson league that balks at article 10, is back of Mr. Harding. But if elected with that support, how can he then sit down with a senate that will still be full of arch conspirators, including the archest conspirator of all, Senator Lodge, and agree to a league that the pure milk of the word senators will have none of? Can Mr. Cox fool them all prior to election and please them all after?

Not if the country knows its President. Mr. Wilson is not going to have any such sittings down on his league or with his league's enemies. He will either have to snatch Mr. Cox out of his sitting posture and hold him on his feet until next Tuesday, or denounce him as a world's heart breaker.

It's a sad affair at best. Mr. Cox has virtually left the league waiting at the church. But he himself is rushing on the fate that gay deceivers usually meet. The league's relatives are right at his heels and the refuge to which he is flying is occupied by arch conspirators armed with all the weapons of their trade. Mr. Cox is an able sprinter and an able doubler. He is a Mr. Facing-both-ways of exceptional ability. But if he can stand up for the Wilson league and sit down with its enemies, and make each believe he is not doing it with the other, he is more rarely accomplished than his achievements in this campaign would indicate. Probably the feat is beyond him. It is one that seems to go with his general strategy of assuming that one part of the country doesn't know what he is saying in another, but that strategy hasn't been particularly successful and this latest example of it seems destined to be even less so.—Kansas City Star.

THE OBLIGATION OF ARTICLE 10 OF LEAGUE OF NATIONS.

Mr. Wilson and Mr. Cox demand that, as part of the Covenant of the League of Nations, Article 10 shall be accepted by the United States "without essential reservations." What would such acceptance mean to the United States?

It would mean that the United States would face the perils of foreign controversy and bloodshed throughout the world; that the United States would be exposed to the dangers of every war between nations anywhere in the world; that American soldiers and sailors would be on call to fight and die in every quarter of the globe for causes that were foreign and for interests that were not theirs.

No conflict is thinkable among the nations of Europe, that does not involve either "external aggression" or "political independence." And the United States, by Article 10, would be bound to "preserve against external aggression the territorial integrity and existing political independence of all the members of the League."

It is a pledge as wide as the world, as foreign as Asia, as dark as Africa, as perilous as war, as deadly as pestilence, as sweeping as death. Once taken, its dire consequences would follow one another as inevitably as night follows day.

There is a solemn obligation, original, primary, that we will preserve the territorial integrity of these nations. It does not make any difference whether any one advises or not; our duty is there, and it is a solemn obligation that we will perform it. We can only escape from it along the path of dishonor.

THE ACID TEST

HAYS REFUSES REQUEST

New York, Oct. 30.—Will H. Hays, chairman of the Republican National Committee refused a request by the "Pro-League Independents" to co-operate in selecting a jury of 12 men to pass on attempts to prove "that American soldiers could not be ordered to go abroad by the League of Nations without the consent of our congress." "I have no time to waste in academic discussion," he said.

HARDING SPECIAL ROUTED ON BIG FOUR

Many people who hoped that Senator Warren G. Harding, would stop for a moment in Xenia on his way from Cincinnati to Columbus where he speaks Saturday night, were disappointed, because the candidate's itinerary carried him through Dayton and Springfield.

Leaving Cincinnati on his special train, Senator Harding talked briefly in Middletown and at the station at Dayton 1:25 o'clock Saturday afternoon. From Dayton he went on to Springfield for an address to a meeting at Memorial Hall.

Leaving Springfield, the candidate goes on to Columbus where he is scheduled to speak Saturday night.

HENRY THE GREAT.

I have a hat that cost a pile—hat prices high have soared—and I take off that treasured tile, and bow to Henry Ford. Like many patriotic gents, the people's cause I'd aid, unless 'twould cost me fifteen cents—and then I am afraid. I'd gladly make the welkin ring demanding prices fair; wind doesn't cost me anything, and I have lots to spare. But when it comes to selling rhymes at any pre-war rates, why, I have use for all my dimes, like all the other skates. But Henry took a nobler view, and he had higher plans; he said, "I'll cut the price in two, on my nice tin sedans. What though it means a mighty loss? My spirit won't be grieved; the cause is good and coin is dross when good may be achieved." So he indulged in slashing jags, cut prices many beans; and poor folk brought their shopping bags and bought his limousines. And other plumes beheld the sign, and their price schedules smashed, and merchant princes fell in line, and slashed, and slashed, and slashed. And while we still have breath and life, we must not this forget—'twas Henry took the pruning knife and an example set.

SIXTEEN THOUSAND POUNDS OF PAPER USED FOR BALLOTS

Saturday, ballots and election supplies were being delivered to the voting places in the various precincts. Owing to the greater number of supplies, especially the ballots, the work is the heaviest it has been in years. The supply cases are filled

and in most instances, extra ballots have to be delivered outside of the cases.

Sixteen thousand pounds of paper were required to print all the ballots necessary for Greene county, according to the Board of Elections. If the vote is normal it is expected that twice as many votes as usual will be recorded.

LEVY FOR POLICE AND FIREMEN'S FUND TO BE VOTED ON

A levy to provide a pension fund for police and firemen who have been retired from the city safety service through old age, will be one of the issues that will come to the attention of the Xenia city voters at the polls next Tuesday.

The levy is for .3 of a mill for each, or .3 of a mill for a police pension fund and .3 of a mill for a firemen's pension fund, making the total levy, .6 of a mill.

In this manner several thousand dollars will be raised on the first year's levy, and no additional levy to keep the fund will be asked for them, until it is necessary to replenish the fund. The levy is the result of an act of the City Commission and the plans provide that after the money is appropriated, that a board of trustees to take care of it, will be appointed by the city commission, and the pensions will be paid in for cases of retirement and disability.

The provision of such a fund for retired police and firemen has long been discussed here, but this is the first definite action that has been taken on the matter. The retirement of several firemen, who gave long years of service to the city, helped promote the action of the committee in providing the fund.

The levy will be provided for just one year, but additional levies will be asked for as often as it is necessary to replenish the fund, it being thought that the first levy, will be sufficient to take care of the fund for at least several years, before another levy will be needed.

SETS PRICE FOR CORN HUSKING IN FAYETTE COUNTY

The Fayette County Farm Bureau in a meeting held Wednesday night, set the price of corn husking for that county at five cents per bushel. The price was set in accordance with the price being paid for corn. The price is on an average of the price being paid all over the state.

It was stated at the meeting that a large amount of corn in fields has been turned over to fattening hogs, the crop being especially large this year.

The price set is about half of what was paid last year and is due to the price of corn on the market being much lower than last year.

The Greene County Farm Bureau has taken no definite action, and the price being paid has not been ascertained.

IF BACK HURTS BEGIN ON SALTS

Flush the kidneys at once when Back-ache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

WOMEN NEED NOT STAND IT

Lydia E. Pinkham's Vegetable Compound Surely Removes Suffering and Pain. Here is Proof.

St. Paul, Neb.—"I suffered with periodical pain for about four years so that I was unable to do my work at times. A friend told me about Lydia E. Pinkham's Vegetable Compound and I took it. It soon stopped all my suffering so that I am now feeling fine in every way. I recommend your medicine to my friends who have similar troubles. You may publish this letter for the benefit of other women."—Mrs. WILL THOMAS, St. Paul, Neb.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham Laboratory at Lynn, Mass., seem to prove this fact.

For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who now are free from suffering by its use.

Is It Yours

THIS IS THE BIRTHDAY OF GEORGE II
October 30, 1683

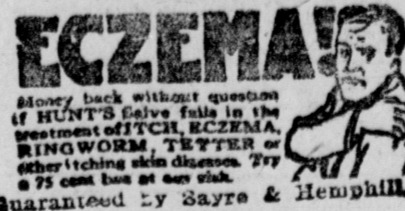

George II, King of Great Britain and Ireland was the only son of George I, and was born in 1683. He was never on good terms with his father—in fact, at one time the king ordered him arrested and he was commanded to leave the Royal residence and take up his residence elsewhere.

George II was in his forties when he became king and it was generally believed that he would reverse all his father's policies. He did not do so, however. He had a curious methodical mind, so entirely engrossed in details that it could never comprehend any big question.

George II, however had one saving

characteristic—he knew when people were wiser than himself. He followed the good counsel of his wife until her death, and after that he followed the great Walpole and other ministers. He quarreled with his son exactly as his father had quarreled with him; he even ordered the young prince to leave the Royal Palace and live elsewhere.

As a king or as a royal figure he was rather a failure. Much of the king's personal authority died out during his lifetime or rather it passed from the king to Parliament. George II died in 1760 and was succeeded by his grandson, George III.

This Xmas let it be a Furniture Aristocrat

Let us show you what an exquisite thing a phonograph cabinet can be.

Every New Edison on our floor—no matter what its price—is encased in a genuine period cabinet.

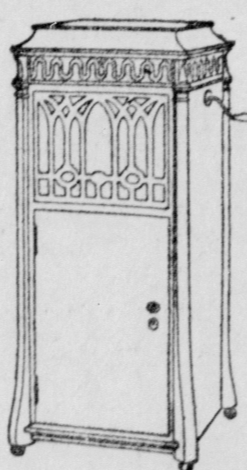

Period Furniture is the world's most exquisite development of furniture. It originated in the 16th, 17th, and 18th Centuries. Europe was ruled by a Gorgeous Aristocracy. Fine living was the ideal of the day. An unparalleled race of artists, architects, and designers built palatial living-places for kings and nobles, and furnished them. The palaces of the nobility became treasure-houses of fine

furniture. It was called the "Golden Age of Furniture."

So Mr. Edison had his designers go back into the manor houses of England, the chateaux of France and the castles of Italy. They adapted 17 designs from historic masterpieces. They preserved entire "the character and feeling of the best periods" in these superb phonograph cases for the modern American home.

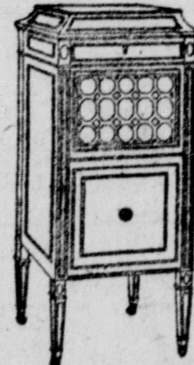

No matter which Edison cabinet you choose, you get both the arts that make your house a cultured home—music perfectly RE-CREATED and furniture of purest period source. What finer gift for all the family?

WHAT YOU CAN DO TO HELP ELECT HARDING

Call up the Harding and Coolidge Club at once, Bell Phones No. 31-R and No. 95, or Citizens Phone No. 95 and offer your assistance in any of the following ways:

First—Offer your service for election day. We need men and women who will work at the polls on election day. Under the law we cannot pay for this service. Second—Offer the use of your automobile on election day.

Third—Give us the name of any acquaintance who may be unable to go to the polls without assistance.

Fourth—Vote early yourself and insist upon every member of your family and every acquaintance doing likewise.

Fifth—If you have any friend who needs instruction, get sample ballots of us and show that friend how to vote.

Sixth—Telephone us any information you think we ought to have.

WHO CAN VOTE

Any person who is twenty-one years of age, is a citizen of the United States, has resided in Ohio one year and in Greene county one month is entitled to vote.

The right to vote is the CROWNING RIGHT OF CITIZENSHIP. Every man and every woman, who is a true AMERICAN, will insist upon exercising this right. IF YOU ARE DENIED THIS RIGHT ON ELECTION DAY, telephone the Harding and Coolidge Club, Bell Phone No. 95, or Citizens Phone No. 95, and a competent attorney will be assigned to give you legal assistance without any charge whatever to you.

HOW TO VOTE.

Go to your voting place. Give the election officer your name, as John Smith or Mary Smith, not Mrs. John Smith. You will be handed two large tickets, namely the National Ticket and the State and County Ticket. Both of these are party tickets, and you will find at the top the party emblems with a circle directly below each of the emblems. Go into the booth, take a common lead pencil, which you will find in the booth, put one X IN THE CIRCLE UNDER THE EAGLE on each of these tickets. Do not put any other mark on them or you may lose your vote. Many men who thought they knew all about voting a mixed ticket, have lost their votes because they put an X in the wrong place. Do not write your name on the ticket.

You will be handed also two small tickets, in addition

to the two large tickets above mentioned. These are not party tickets and so have no emblems at the top. They are the Judicial Ticket and the Prohibition Enforcement or Crabbe Act Ticket. Vote the Judicial Ticket by putting an X in the space to the left of each man you want to vote for. Make up your mind which men you want to vote for before you go to the polls. Sample Judicial ballots are available to aid you in your selection of judges and you should get one of these unless you know what judges you want to vote for.

The second small ticket is the Prohibition Enforcement or Crabbe Act Ticket above mentioned. You will vote by putting an X in the space to the left of Yes or No as you desire.

If you live in Xenia, you will be handed two other tickets, the ticket providing for an increased levy for school purposes in Xenia School District and a ticket providing for a tax levy for the Firemen and Policemen's Pension Fund. You will vote Yes or No as you choose by putting an X in the space to the left of Yes or No, exactly as on the Crabbe Act ticket.

Hand all six tickets (if you live outside of Xenia you will have only four) to the election officer and he will put them in the proper boxes.

BEAUTY CHATS

Specialists on the subject of reduc-
tion may disagree about every item in
the various reduction systems, but
there is one thing about which they
are still in harmony. And that is
about not drinking water with the
meals. All women who are too stout
are great water drinkers. Watch your
fat friends and you will observe for
yourself how they will take two, three
or even four glasses of water with a
meal, as well as occasional glasses
of water between meals. Now all this
is of course very healthy—the water
helps to make digestion easy, it flush-
es out the system, helps prevent the
poisonous condition which causes
rheumatism and does much to give
the stout woman the beautiful com-
plexion she almost invariably posses-
ses.
But the stout woman can digest
her food. What she wants to do is
of water. One reason why she is

Everybody Wants Good Schools

But unless help is given to our Xenia City Schools
our boys and girls will be deprived of good schools now
and in the future. The number of pupils in school, the
salaries of teachers, the cost of coal, books, and every
other article used by the schools has increased. We
have tried to meet these in creasing costs and thus not
lower the standards of our schools by borrowing money
and issuing bonds. We have done this mainly to pay
salaries large enough to keep in Xenia our successful
teachers.

We cannot borrow any more money. We can issue
more bonds but this is an expensive way of doing bus-
iness. The interest on these bonds alone will soon
amount to more than the slight increase in taxes
which we are asking.

The last session of legislature revised the school
law so that school districts might, by popular vote,
add 3 mills to the regular school levy. Almost every
city and village school district in Ohio has voted on this
measure and not one has defeated it. Why? Because
they all believe that education is the best thing we can
leave our children.

Shall we do the same on next Tuesday, or shall we
deprive our boys and girls of the educational advan-
tages which parents and citizens in other progressive
cities in Ohio are giving theirs?

Vote "yes" and help keep our schools in session ten
months instead of eight. Vote "yes" and help us to
make our schools ont only as good as they have been,
but better still.

We, the undersigned, have examined the finan-
cial condition of the Xenia public schools and find that
the three mill levy should be passed in order that our
schools may live.

We therefore recommend to the voters that they
vote YES on this issue:
